Summary

AI and Machine Learning graduate with strong expertise in Python, data analysis, and deep learning. Hands-on experience in building, training, and deploying machine learning systems. Seeking an entry-level AI/ML or Data Analyst role.

Technical Skills

Programming: Python, SQL

Machine Learning: Machine Learning, Deep Learning, CNN, NLP, Scikit-learn

Frameworks: TensorFlow, Keras

Data Analysis: Pandas, NumPy, Data Preprocessing, Feature Engineering

Visualization: Matplotlib, Seaborn

Tools: Git, GitHub, Jupyter Notebook, Streamlit, FastAPI, MongoDB

Projects

Plant Disease Detection

- Developed a CNN-based deep learning model for plant disease classification.
- Performed image preprocessing, data augmentation, and feature extraction.
- Trained and evaluated models using TensorFlow and Keras.
- Deployed the solution using Jupyter Notebook for real-time prediction.

MarketMind HUB (AI-Powered Financial Analytics Platform)

- Designed and developed an AI-driven financial intelligence platform integrating LLMs and data pipelines.
- Implemented Retrieval-Augmented Generation (RAG) using FAISS and MongoDB.
- Built scalable backend services using FastAPI and REST APIs.
- Integrated real-time chatbot, market insights, and automated alerts.
- Deployed multi-channel interfaces including web and Telegram bot.

Education

B.E. Computer Science and Technology (AI & ML)

March 2025

Parul University of Engineering and Technology, Gujarat

Relevant Coursework: Data Structures, Algorithms, DBMS, OS, CN, Machine Learning, Deep Learning

Intermediate — Narayana Junior College, Vijayawada

80.4%

10th Grade — KTR Techno School, Kanigiri

CGPA: 9.8

Internship Experience

Cybersecurity Intern

Dec 2024 – Mar 2025

Inspira Enterprise India Pvt Ltd

- Analyzed security logs and network traffic using SIEM tools.
- Supported vulnerability assessments and incident response activities.
- Prepared technical documentation and reports.

Certifications

Google Cybersecurity Professional Certificate — Coursera (2025)
